Victory Acres 2008 CSA Agreement

We understand that due to the vagaries of weather and other seasonal factors, season dates and items listed to be grown are all variable and subject to change.

We understand and agree that Terry Himelick and Dan Perkins at Victory Acres CSA will and have done everything possible to prevent these negative factors from damaging our naturally grown local foods.

We understand that there are no refunds.

We understand that Victory Acres will not be held liable for any injuries/accidents to farm members on the farm.

We understand as farm members that we are welcome on the farm-hike, picnic, and camp-except on Sundays.

Delivery charge is assessed to cover cost of fuel. Drop-off sites are subject to change as needed.

We understand that we will receive a "share" of the produce and that the produce will be divided as equally as possible between the members of the CSA.

We understand that Victory Acres will take our suggestions and the suggestions of all other members into account in forming the planting list. We understand that the planting list we receive is subject to change.

We understand that VICM cannot hold our portion, and if our produce is not picked up at the drop off point or the farm during the weekly, designated time period, we forfeit our portion for the week. If notified 2 days prior to pick-up your share will be donated to a family in need.

I choose to make a difference in my local food economy by joining Victory Acres Farm and CSA. I understand the guidelines set forth for the 2008 growing season.
